

To Whom it may Concern:

This letter is to recommend Elie Posner for a potential photography assistant position. His talents go far beyond the typical photographers' assistant. Elie is unique in that he can multi task a number of things and works very efficiently. He is extremely personable and pleasant to work with and brings a good vibe to each situation. He can handle confidently the position as production coordinator, translator, driver, and do the photo gear end of things in a professional manner.

Elie worked with me for three months this past spring as all of the above. I haven't been able to find someone as professional and capable in the United States, where I reside. He is definitely a rare and special person with a fantastic personality. I recommend Elie without reservation. I have worked with many over the past years and he tops them all!

Please feel free to contact me if you have any questions or concerns.

Sincerely,

Angela Strassheim
